Program of the European Dromedary and Camelid Day

Don't miss this great 100% camelid event in France and Europe, bringing together French and European institutions and professionals. The Ferme Exotique of Cadaujac has about a hundred camelids (50 dromedaries, camels, llamas, alpacas, guanacos).

To get there: La Ferme Exotique - Parc animalier et zoologique, 1930 chem Port de l'Esquillot, 33140 Cadaujac.

While the F.A.O. and the I.C.O. have declared the camel to be an animal of the future because of its perfect adaptation to drought, that it is now appearing in many regions of the world where it was previously non-existent, that camel milk and wool are products of excellence that are increasingly prized throughout the world, that the link between this exceptional animal loved by its breeders, that its sporting development, particularly for racing and leisure, can bring France and Europe closer to many peoples in the world, we must now think the world of today with the brains of tomorrow.

Program of the European Dromedary and Camelid Day

The organisers

The F.F.C. - French Camel Federation has the mission to develop the amateur and professional sector of large camelids in France.

It relies on a European and international institutional and professional network and offers a unique insurance "SIMPLI CAMELIDES FFC".

The Ferme Exotique of Cadaujac-Bordeaux

19 years of wonder and discovery of the riches of the world and of a rare and precious natural and cultural heritage including a beautiful white camel farm, one of the largest in Europe!

A visit to the park allows you to meet nearly 800 animals of 75 species from the five continents in life-size settings. Discover our conservatory of endangered domestic breeds and enter the largest dromedary farm in France. As well as travelling across the continents, we invite you to take a trip back in time. Dive into the heart of history in our carriage museum with a unique collection of over 100 carriages that have been used in the filming of numerous period films.
